

MICROSOFT DYNAMICS GP MAGENTO

EVERYTHING YOU NEED TO BUILD A POWERFUL ECOMMERCE STORE IS WITHIN DYNAMICS GP

x2x eCommerce is the first and only solution that adds an eCommerce module to Dynamics GP and uses the latest and thoroughly comprehensive web-front components provided by Magento eCommerce.

Why ?

x2x eCommerce for

Microsoft Dynamics GP and Magento:

- Built in eCommerce module within Dynamics GP
- End-to-End, Integration of key operations
- User Friendly Interface
- Easy to configure & use
- Support mechanism to ensure smooth operations

Benefits:

- Configuration flexibility as per business requirement
- Product catalog creation capability using categories in GP
- Parent/Child Item creation capability to ensure product compatibility with eCommerce platform
- Flexibility to create customers in GP or use guest customer option
- Bi-directional customer Integration
- Quick and easy order processing cycle with shipment & invoice upload on Magento
- Easy Inventory count, price & price level, and image updates
- Scheduling of Key processes as per requirement
- Activity log to show the success/failure of process

Benefits of integrating

Microsoft Dynamics GP and Magento:

- Data management between two platforms
- Process automation increases productivity
- Human error reduction due to manual entry elimination
- Reduction in lost Sales due to instant inventory updates
- No data discrepancy between two platforms
- No need of extra resources for data entry tasks.
- Increased Profitability with more time to focus on business growth
