## Empowering Partners

x2x empowers the partners to be independent to install and setup the program themselves. This is done by providing full user training, user manuals, and video tutorials. The inbuilt design feature of RMH QBO allows direct drilling down into the QBO Chart of Accounts making account definition as easy as 1-2-3. Earn more revenue and get more control over your client's installations by setting up x2x RMH QBO solution on your own
